PROFESSIONAL EXPERIENCE

Data Analytics Intern

04/2025 – present

Atliq Technologies 🔗

- Created **Shield Insurance Dashboard** using MySQL and Power BI to deliver actionable business insights.
- Performed **Model Validation** and strengthened **Risk Governance** processes to support robust decision-making.
- Improved **risk analysis accuracy by 15%** and reduced **reporting delays by 10%** through optimized reporting mechanisms.
- Integrated **5 relational tables** and constructed a structured data model for streamlined analysis.
- Crafted **SQL queries** to analyze sales performance and identify **3 key process inefficiencies**.
- Streamlined workflows and reduced **policy settlement times by an average of 2 days** through process improvements.
- Administered complete data workflows, including **data loading, SQL-based preparation, and dashboard creation**, accelerating reporting by **20%**.
- Engineered and deployed **real-time performance monitoring dashboards**, enabling risk management and ensuring governance compliance through **performance testing and issue management protocols**.

EDUCATION

Birla Institute of Technology 🔗

2022 – 2024

Masters of Computer Applications

CGPA: 8.32

Kolhan University

2019 – 2022

Bachelors of Computer Application

Percentage: 85.2%

SKILLS

Programming Languages: Python, JavaScript

Data Analysis Tools: MS Excel, Power BI, Tableau, Gen AI

Database Management: SQL, MySQL

Data Analysis Techniques: EDA (Exploratory Data Analysis), Data Visualization, Statistical Analysis

PROJECTS

Expense Tracking System 🔗

03/2025

Python, Streamlit, Pandas, Data Visualization

- Built interactive UIs (Streamlit, Power BI) for expense visualization and tracking, integrating Econometric Modelling and real-time insights. This improved data management, addressed 5 common data entry errors, increased user engagement by 30%, and became the team's reporting standard.

Business Insights 360 🔗

01/2025

Power BI, SQL, Excel, DAX, Data Modeling

- Implemented **Power BI dashboards** for sales and financial analysis, processing over **100K transactions** and seamlessly integrating Excel and SQL data for comprehensive reporting.
- Enabled **self-service reporting** with **50+ template downloads**, saving **8+ man-hours monthly** by eliminating redundant analysis and applying **robust Controls and Stress Testing**.

CERTIFICATES

- Excel: Mother of Business Intelligence 🔗
- SQL Beginner to Advanced For Data Professionals 🔗
- Python: Beginner to Advanced For Data Professionals 🔗
- Get Job Ready: Power BI Data Analytics for All Levels 3.0 🔗
